

PRAB Casting Coolers

PRAB manufactures a line of custom designed air cooling conveyors. These units are ideal for cooling hot die castings.

Casting Cooling Features:

- Eliminates misting issues associated with water quench conveyors
- Improve plant air quality
- Continuous running or indexing options
- PRAB conveyor options:
 - 2.5" Pitch Steel Belt Conveyor
 - 4" Pitch Steel Belt Conveyor
 - Flat Wire Mesh Belt Conveyor
 - Promotes extra cooling for lightweight casting applications
- Single fan or multiple cooling zones available
- Easy interface with other system controls
- Extended lengths with single and/or multiple fan designs
- Includes PRAB's complete 1 year warranty
